RE: Approval of Survey of
Cobblestone Tiger Beetle

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Survey for the Cobblestone Tiger Beetle on Sections of the Great Miami and Whitewater Rivers.

This document adequately summarizes the methods and results of the survey conducted during the spring and summer of 1995. Thirty-nine (39) cobblestone tiger beetles were found at six (6) locations along the great Miami River, downstream from the Fernald facility.

U.S. EPA hereby approves the survey. Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric, Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
